TABITHA CHELAGAT

Business Intelligence Analyst — Dashboards, Risk Analytics & Data Governance

Nairobi, Kenya | +254 708 152 411 | chelagattabitha7@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Metric-focused Business Intelligence Analyst with a proven history of using data analytics to safeguard revenue, mitigate financial risk, and drive strategic decisions. Skilled at turning complex multi-source data into high-performance executive dashboards, building portfolio monitoring models for multi-million dollar portfolios, and deploying compliance and data-quality frameworks that protect cross-border operations. Has also led a team of 6 field data collectors to 100% timely submission on a WHO polio vaccination monitoring programme.

TECHNICAL SKILLS

Tools: Power BI, Python, SQL, Tableau, Excel, R, DAX, SQL Server, BigQuery

Analytics & Frameworks: Marketing Campaign ROI Analysis, Customer Lifetime Value (CLV), Portfolio Risk Modelling

Data Governance & Strategy: Data Quality Frameworks, Cross-Functional Stakeholder Alignment, Technical Documentation

PROFESSIONAL EXPERIENCE

Data Manager (Volunteering) | Savannah IQ *Jan 2026 – Present*

- Architected the data infrastructure for a live satellite land-intelligence platform covering Kenya's 47 counties, integrating Earth Engine imagery with a cloud API backend for reporting and analysis.
- Engineered data governance protocols and validation workflows to secure high-quality ingestion of boundary and farm data, including directing the digitisation of 38,360 farm boundaries in Bungoma County.
- Designed central tracking metrics to standardise operational inputs and cut manual processing.

Data Analyst | PULA *May 2024 – Aug 2026*

- Led data digitisation and compliance validation for an EUDR initiative protecting cross-border trade.
- Verified quality standards across digital records for 1M+ coffee farms in East Africa using validation scripts.
- Programmed Python automation scripts to audit, clean, and process large-scale multi-source regional datasets.

Data Analyst | NCBA Group *Jan 2023 – Apr 2024*

- Built portfolio monitoring dashboards translating customer, transaction, and liquidity metrics into automated executive insights for Account Managers' loan reviews.
- Built predictive credit models flagging at-risk borrowers early, safeguarding KES 1.4M+ in exposure.
- Designed anomaly detection scripts flagging suspicious transactions and irregular loan-to-income ratios, strengthening fraud prevention across the credit portfolio.

Monitoring & Evaluation Supervisor | World Health Organization (WHO) *Aug 2022 – Dec 2022*

- Supervised end-to-end data collection workflows in ODK and fieldwork data operations across regional field deployments, ensuring strict protocol adherence.
- Spearheaded quality assurance data audits on incoming epidemiological field data registries, driving data accuracy rates upwards.
- Trained and managed 6 field enumerators on digital data collection instruments, optimising regional tracking and field report delivery cycles.

PORTFOLIO PROJECTS

DataLens — End-to-End Data Lifecycle App View Project

- Built a live web app on a demo retail dataset (6,500+ orders, 14,500+ line items) that takes raw data through quality checks, cleaning, transformation, and analytics, then answers business questions with computed, evidence-backed charts.

Banking Portfolio Risk & Asset Monitoring Dashboard View Project • Live Dashboard

- Architected a real-time credit risk monitoring framework tracking $61M in assets across a 1,000-customer loan portfolio, with automated alerts when default rates breach set thresholds.

Insurance Claims Risk & Fraud Detection System View Project

- Built a SQL framework (CTEs, window functions, materialised views) detecting fraud via loss-ratio and claim-frequency anomalies, flagging 154 suspicious early-stage claims for underwriting review.

EDUCATION & CREDENTIALS

BSc, Control and Instrumentation Engineering — Jomo Kenyatta University of Agriculture & Technology (JKUAT), 2018 – 2022

Google Data Analytics Certificate — Coursera, Feb 2022 – Dec 2022

Delegate — World Bank Group Youth Summit, Jun 2026 (United States, Remote)
